

PASSENGER TRAFFIC REPORT

ADELAIDE AIRPORT LIMITED

ADELAIDE AIRPORT HAS RECORDED THE FOLLOWING AERONAUTICAL PASSENGER TRAFFIC PERFORMANCE FOR THE NINE MONTHS ENDED MARCH 2011

Pax ('000)	Financial Year to Date		
	Mar-11	Mar-10	Growth(%)
Domestic	4,751	4,511	5.3%
International	417	408	2.2%
Regional	441	388	13.7%
TOTAL	5,609	5,307	5.7%

Year on year passenger growth at 5.7% remains strong, albeit falling marginally from the half year growth rate of 7.4%. In particular Tiger's exit from a number of routes has reduced the rate of growth somewhat although this was partially offset by an increase in Jetstar's capacity.

There were a number of additions to existing international services late in the quarter, in particular Malaysia Airlines increased their services from 4 to 6 per week, while Pacific Blue recently increased Bali services from 3 to 4 per week.

Regional passengers have continued to grow at pre GFC levels – recording an increase of 13.7% on prior year numbers and outperforming budget by 2.8%. Services to Port Lincoln and the strengthening of the mining sector have aided in bringing regional passengers to 'highest ever' levels.
