Adelaide Airport records 2.4% growth in domestic passengers for Q4 FY16

Pax ('000s)	Quarter to Date			Financial Year to Date (Final)		
	Jun-16	Jun-15	Growth (%)	Jun-16	Jun-15	Growth (%)
Domestic *	1,711	1,671	2.4%	7,035	6,907	1.9%
International	210	210	0.1%	858	936	-8.3%
Total	1,920	1,880	2.1%	7,893	7,842	0.7%

*Including Regional

Adelaide Airport Limited (AAL) has recorded a 2.1% increase in total passenger numbers for Q4 FY16 compared to the prior corresponding period.

Domestic passengers grew 2.4% to 1.71 million for the quarter led by passenger increases on the primary capital city markets of Sydney (+3.3%), Melbourne (+2.4%) and Brisbane (+4.3%). The introduction of the direct Avalon service in March 2016 stimulated the Victorian market with 13,400 new seats available between Adelaide and Avalon over the quarter.

International passengers returned to positive growth during Q4 FY16 with a pax increase of 0.1% following the introduction of the Qatar Airways daily Adelaide-Doha service on the 3rd of May which increased capacity by 32k seats for the quarter. This was partly offset by Malaysia Airlines decreasing from a weekly to a 4 per week service.

The (-8.3%) decline in passengers observed over the financial year reflects the cancellation of the daily Air Asia X service in January 2015. Combined with the Malaysia Airlines reductions in September 2015, there was a net reduction of 10 services per week to Kuala Lumpur.
