About the Master Plan

The Adelaide Airport Master Plan 2019 (Master Plan 2019) outlines the vision for the growth of Adelaide Airport over the next 20 years, in terms of both aviation capacity and commercial developments. It sets out the requirements for future facilities, infrastructure, ground transport and services that will ensure that the airport continues to deliver on investments to meet our stakeholder's needs.

The Master Plan 2019 also outlines the vision for the development of Adelaide Airport to support the continued growth of air travel and the State economy. Continuing to focus on sustainable outcomes, improved customer experience and finding innovative solutions, short- and longer-term planning and delivery of facilities, infrastructure, ground transport and utilities, will ensure the airport continues to serve the people of South Australia.

Adelaide Airport Limited (AAL), as the operator of Adelaide Airport, is required to prepare a Master Plan in accordance with the Airports Act 1996 (Airports Act) for approval by the Commonwealth Government.

Under the provisions of the Airports Act, AAL must produce a final Master Plan that has been approved by the Minister for Infrastructure, Transport and Regional Development (the Commonwealth Minister) that:

- a Establishes the strategic direction for efficient and economic development at the airport over the next 20 years
- b Provides for the development of additional uses at Adelaide Airport
- c Indicates to the public the intended uses of the site
- d Reduces potential conflicts between uses on-site, and to ensure that those uses are compatible with the areas surrounding the airport
- e Ensures that all operations at the airport are undertaken in accordance with relevant environmental legislation and standards
- f Establishes a framework for assessing compliance at the airport with relevant environmental legislation and standards
- g Promotes the continual improvement of environmental management at the airport

Development of the Master Plan

AAL has undertaken extensive consultation for the preparation of this Master Plan. This has included:

- The regular Planning Coordination Forum and Adelaide Airport Consultative Group meetings which have provided extensive feedback on airport master planning considerations throughout the development of the document
- Stakeholder workshops to explore the planning elements detailed in the Master Plan
- Briefings which have been conducted with relevant State Government agencies, local government, aviation industry stakeholders and consultation groups
- Release of an exposure draft version of the Master Plan to the South Australian Department of Planning, Transport and Infrastructure, Commonwealth Department of Infrastructure, Transport, Cities and Regional Development, Department of the Environment and Energy, Airservices Australia, CASA and some airlines

The Preliminary Draft Master Plan 2019 has been prepared following extensive engagement and once approved will form the primary planning document for the next eight years to 2027. It also presents the long-term strategic plans for the 20-year period through to 2039.

Making a Submission

To support the release of the Preliminary Draft Master Plan 2019 for public comment, AAL will undertake the following activities:

- Face-to-face engagement activities
- Digital engagement through social media
- Engagement on the airport's website which details Master Plan 2019
- Provision of supporting information covering key matters such as air-traffic forecasts, aircraft-noise management, safeguarding airport operations, land use and commercial development, and the environment
- Briefings to key stakeholders and community groups; and
- Availability of copies of the Preliminary Draft Master Plan 2019 (hard copies and electronic)

We work hard to create robust, transparent and collaborative communications, using creative, innovative and engaging techniques to interact with the community. We are keen to hear your views on the Adelaide Airport Preliminary Draft Master Plan 2019. The stakeholder, community input and feedback is an important part of the Preliminary Draft Master Plan process. Your feedback is welcomed as we work to finalise the Master Plan prior to submitting to the Commonwealth Minister for consideration.

The Adelaide Airport Preliminary Draft Master Plan 2019 is on public exhibition from 05 August 2019 and the submission period closes on COB 28 October 2019 and we want to hear your thoughts.

You can make a submission via

- Email: aamasterplan@aal.com.au
- Mail: Master Plan 2019 Submissions
Adelaide Airport Limited
1 James Schofield Drive
Adelaide Airport SA 5950

All submissions will be provided to the Commonwealth Minister, therefore please ensure you include your name and address.

Find out more information

The full Preliminary Draft Master Plan can be downloaded at www.adelaideairport.com.au/masterplan

The website will also provide information on:

- where hard copies are available to view
- further supporting information
- where and when you can attend an Open Day and speak to the Adelaide Airport team about the Master Plan
