

Notice 02

Main Runway Closure 04/10/2023 – 23/10/2023

Adelaide Airport would like to advise you that our main runway (runway 05/23) will be closed while we conduct essential maintenance of asphalt construction works. This closure will commence on Wednesday 4 October and will be completed by Monday 23 October during the **existing night curfew** (11pm to 6am).

However, the project will continue **until August 2024**, with periodic main runway closure notifications made to the public prior to the closures. During this time, the small number of curfew-exempted flights will be utilising the cross runway (runway 12/30) for arrivals and departures.

There are typically up to 10 aircraft movements per night, and up to 15 aircraft movements on a busy night during the curfew hours, the majority of which are emergency services and freight operators. The temporary change in runway use may be noticeable to residents living under the cross runway flight paths to the south-east and north-west of the airport.

We apologise for any disturbance this has caused, and appreciate your understanding as we undertake these important maintenance works to ensure safe and efficient operation of aircrafts at Adelaide Airport.

More information about Adelaide Airport Curfew and Flights can be found [here](#). Alternatively, regular updates can be found on our [Facebook](#) and [Instagram](#) (@adelaideairport).
